Section B: Ringelmann Measurement

Steps:

- 1) Stand in the line between the stack and the sun. The sun should be behind you and the stack directly in front of you.
- 2) Hold the Ringelmann Chart on a level with your eye and in line with the top of the stack. Try to make sure that the stack is at least 3 stack distances away.
- 3) Look at the smoke and identify which slice of the Ringelmann chart is the most similar shade of grey.
- 4) Each slice has a number from 0-5, note the number of the matching slice in Q4 below
- 5) Take ONE observation EVERY minute over a 30 minute period, for a total of 30 observations.
